

Autism Diagnostic Observation Schedule -2 (ADOS-2) Clinical Training

**August 15-16, 2013
Workshop #012-14**

**Green River Regional Educational Cooperative
230 Technology Way Bowling Green**

The GRREC Special Education Division is pleased to present *Autism Diagnostic Observation Schedule – 2 (ADOS – 2) Workshop on August 15-16, 2013.*

Rachel Hundley, Ph.D., Clinical Psychologist, Assistant Professor, Department of Pediatrics and Psychiatry, Vanderbilt University School of Medicine; Associate Professor of Special Education; Director, Vanderbilt Kennedy Center Treatment and Research Institute for Autism Spectrum Disorders (TRIAD) Dr. Hundley, certified ADOS trainer will conduct the training.

The ADOS-2 has become the standard instrument for assessing autism spectrum disorders (ASD) across age, developmental level, and language skills. In the 2-day workshop, you will learn how to use the Autism Diagnostic Observation Schedule, Second Edition (ADOS-2) to help assess and diagnose ASD. This training course offers detailed, initial training for people who plan to use the ADOS-2. This training is necessary for anyone planning to use the ADOS-2 in clinical or school settings, and is the first step of training for use of the ADOS-2 in research.

The goals of this workshop are to provide a detailed overview of the ADOS-2, its development, its psychometric properties, and appropriate use and interpretation. Specifically, objectives include how the ADOS-2 targets behaviors specific to autism spectrum disorders, ADOS-2 administration and introduction to coding conventions, and how to appropriately document use of the ADOS-2 in a report. Demonstrations of the 3:30 CDTmeasure are provided each day, involving live administration of the ADOS-2 by the trainer with individuals with ASD. Participants have the opportunity to practice scoring while observing the instructor administer the ADOS-2. Detailed discussions on scoring of the ADOS-2 follow each demonstration.

For:	Psychologists, behavioral specialists, and speech and language pathologists and other professionals who regularly assess children with ASD or developmental disabilities
Dates:	August 15 and 16, 2014
Location:	GRREC Training Facility – 230 Technology Way – Bowling Green
